TESSUTI E TENDENZE:
A NEW ELEGANT AND
FINELY FITTED SHOW

T&T is a natural bridge towards products and technologies for textile companies in tuning with the world of research and new lifestyles. Products, solutions and services capable to combine the technical performance of fabrics with furnishing and comfort requirements.

A new Show expanding the Exhibition concept comes to life with the creation of a separate and distinctive hall dedicated to fabrics and the relevant trends, where architects and interior designers will find the latest solutions for their projects.

The combination with **SUN** further motivates all the companies that are interested in OUTDOOR fabrics.
